Day and Time: Wednesday 3:45 – 4:45 PM

Grades: K-4

Min.6 – Max.16

Price: \$556

Makers Club is an engineering program designed to inspire kids to pursue futures in science & technology. Students interact with fun Maker Kits that enhance mechanical, artistic, and engineering skills, while encouraging them to act as inventors in their own right. Participants design their own remote controlled hydraulic arms, learn to harness energy to power race cars, and experiment with structural design. Plus, students can keep their inventions and proudly share their projects with family and friends. To learn more please visit [www.nexloreusa.com](http://www.nexloreusa.com)

# ROBOCODING

Instructor: Nexplore

Day and Time: Thursday 3:45 – 4:45 PM

Grades: K-4

Min.6 – Max.10

Price: \$474

Coding without a computer? It's the best way to start! This program gives students a hands-on introduction to the fundamentals of both coding and robotics, allowing them to build and execute programs in the real world! With award-winning Cubelets kits, students combine robotic cubes—each with their own unique function—to create machines that can light up, move, and interact with the world around them.

Students gain an in-depth understanding of fundamental concepts like inputs, outputs, and processing, and discover how simple building-blocks can come together to perform more and more complex tasks. By working together to solve coding and building challenges, students also reinforce essential life skills like teamwork, communication, and problem-solving.

# IMPROV FUN AND GAMES

Instructor: Peninsula Youth Theater
